Bagcraft Brand Profile

Paper-Based Solutions for Better Food Packaging

Bagcraft is one of the largest paper-based, flexible foodservice packaging manufacturers in North America, with six manufacturing plants spread across the United States. We provide a broad range of paper-based specialty food-packaging products for restaurants, supermarkets, convenience stores, bakeries, food processors and more. Our products include specialty bags, sandwich wraps and other specialty sheet and roll products.

DUBL LIFE

Dubl Life® is a brand of flexible foodservice and carryout packaging made from 100% recycled paper. The Dubl Life brand drives awareness of the benefits of recycling and promotes the use of packaging solutions with post-consumer material content.

Eco Craft®

EcoCraft® is Bagcraft's unique brand of brown kraft paper products. Each item throughout the EcoCraft line has sustainability attributes, including recyclability, compostability, or recycled fiber content, depending on the product.

Sustainability Vision

The Novolex vision for sustainability is to innovate more choices for our customers, operate responsibly and invest in our people and communities. We bring this vision to life every day through our ongoing focus on efficiency in our operations, as well as through partnerships with customers, suppliers, communities and others in the industry to develop solutions that reduce the impact our products have on the environment.

novolex

Sustainability Partnerships & Certifications

Forest Stewardship Council®

The Forest Stewardship Council® (FSC®) promotes responsible forest management through globally recognized forest management and chain of custody certification. Novolex uses FSC Trademark License FSC(R) -C010800 for eligible Chain of Custody certified products manufactured at Bagcraft facilities.

Sustainable Forestry Initiative

Sustainable Forestry Initiative® (SFI®) is a North American forest certification program that includes forest management, fiber sourcing, and chain of custody standards. Eligible Novolex products produced at Bagcraft, Duro, Burrows Packaging, and De Luxe are available with SFI Certified Sourcing or SFI Chain of Custody certification. Novolex uses SFI Trademark License Code 01567.

Biodegradable Products Institute

Biodegradable Products Institute (BPI) is North America's leading certifier of compostable products and packaging. Their certification program ensures that products and packaging displaying the BPI logo have been independently tested and verified according to scientifically based standards—ASTM D6400 or D6868 standards. The BPI logo also helps industrial composters know that our products will break down as expected and contribute to healthy soil amendment.

Compost Manufacturing Alliance™

Compost Manufacturing Alliance (CMA) verifies that certified compostable products successfully disintegrate under real-world commercial composting conditions. CMA field testing complements laboratory certification by evaluating product performance in participating industrial composting facilities.

American Society for Testing and Materials (ASTM)

American Society for Testing and Materials (ASTM) develops voluntary consensus standards used across industries. ASTM D6400 and ASTM D6868 establish requirements for products and packaging designed for commercial composting, including criteria for disintegration, biodegradability, and compost quality.

*Availability of certifications and sustainability attributes varies by product. Refer to individual product specifications for applicable certifications and claims.

Custom Printing Capabilities

Our efficient presses deliver state-of-the-art graphics capabilities to differentiate your products on the shelf and on the go. Our commitment to innovative solutions enables us to expertly consult with you on packaging design.

CUSTOM ORDER INFORMATION FOR QUOTES

- Bag (width, gusset, length)
- Sheet (width and length)
- Roll (roll width and length or outer diameter)
- Initial order quantity needed and the annual volume (units or cases)
- Name of printed design or logo
- Basis weight of paper if known
- Type of paper or combination of materials (foil, bio-film or glassine)
- Provide an explanation of the proposed window die or panel location on the package
- Number of printed colors (provide PMS numbers)
- Product application (what will the package be used for?)
- Case pack sizes (inner and total)
- Shipping/distribution information

HOW TO MEASURE A BAG FOR QUOTES AND PRODUCTION: SEE PAGE 9

- Measure the face of the bag (width)
- Measure the gusset of the bag (side width)
- Measure the length of the bag (not including lip)

How to Measure a Bag

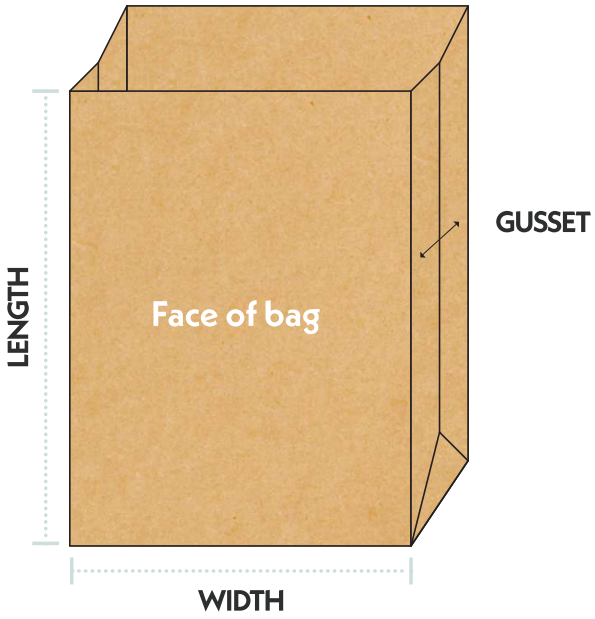

More informations on how to take the right measurements

GUSSET

(the width of the side of the bag fully expanded, taken near the center of the bag)

Pan Liners

Standard Release Pan Liners

Performance Features

- Premium full and half pan liners
- Good for products with low sugar content
- Provides excellent moisture protection
- Kosher certified

Power Prep™ Wrap

Performance Features

- Grease-resistant paper with PET-insulated laminate performs across multiple temperatures and provides excellent moisture protection
- Maintains food quality from freezing through thawing, reheating, and heated holding
- Anti-curl lamination enables flat sheets, improving efficiency for fast, high-volume wrapping and freezing
- More puncture-resistant than foil or foil/paper; a strong alternative for sandwich packaging

Eco-Flute® Packaging

The Advantages of EcoCraft Clamshells

Performance Features

- **Sturdy:** The Eco-Flute® 50# paper construction provides superior rigidity and crush strength.
- **Insulated**: The corrugate layer helps to keep hot food hot and cold food cold.
- **Food Integrity:** The lightweight Eco-Flute material allows for moisture vapor transmission and resists grease to keep foods fresh and crisp.
- **Steam Release:** Select the right level of venting for each food type with multiple articulated vents.
- **Visibility:** Windowed clamshells can improve order accuracy.
- **Ease of Use:** Easy to store, easy to load and easy to lock.
- **Recyclable:** All clamshells window and non-window. Check locally, may not be recyclable in your area.

Eco-Flute®

EcoCraft clamshells are constructed from Eco-Flute®, a micro-flute technology that utilizes post-consumer recycled content to provide a sturdy, lightweight package. These containers resist grease and retain heat.

The medium layer of Eco-Flute is 100% post-consumer recycled content (PCR) paper, making the clamshell a minimum of 33% PCR.

NovoVue Rollstock™

Our wide diversity of capabilities combined with an experienced packaging design and innovation team has brought Novolex to the forefront as a leading flexible packaging supplier to the top 25 restaurant and supermarket chains across North America.

Overview

- Precise laser cutters produce boundless options of intricate window shapes
- Finished products can have high definition 10-color process printing with die-cut window
- Integrated, advanced laminator yields more durable seals for continuous or die cut windows
- Works with a variety of substrates geared towards form, fill and seal machines
- Works with many films including PET, PP, PE, PLA, foil and COEX films

Performance Features

1. Dynamic capabilities for unique packaging designs
2. Continuous window capabilities
3. Anti-Fog window offers clear visibility
4. Paper packaging provides a handcrafted appearance
5. Custom precision laser cut
