# Custom Printed Bags

## One of the the most effective ways to advertise your store name and product!

Having an eye-catching shopping bag allows a business to effectively and inexpensively advertise. When your customer carries your banner, other shoppers observe your company's name and interpret it as an endorsement. It is why car dealers provide you with a license plate frame for your car...free advertising and immediate endorsement. *In most cases you're going to provide a bag anyway; personalizing is a small percentage of the cost of the bag.*

## General Guidelines

### Artwork:

Artwork must be provided as an electronic file. Artwork must be saved as an .ai, .eps or a .pdf file, must be created (not placed) in Adobe Illustrator, with all fonts outlined or included.

### Plates & Dies:

The plate or die charge is usually determined by the total number of square inches occupied by your art. Other variables such as multiple colors and complexity of design will also affect the cost. Consequently, plate charges cannot be quoted until your artwork has been sized and approved.

### Print or Hot Stamp:

Paper and Frosted Shopping Bags can be printed with ink or hot stamped with a foil. All other bag materials; Polyethylene, Supergloss & Bags on Rolls can only be printed.

## Supergloss Bags

### Quantity

The minimum order for printed Supergloss bags is 6,000\* bags per size.  
\*Please allow a 25% over/under run.

# Aaron Contemporary™ Raw Steel Fixtures

Aaron Contemporary™ has created a new and unique line of retail store fixtures as an alternative to the traditional chrome fixture. The fixtures of Aaron Contemporary™ are manufactured from raw steel which are cut, welded (weld marks are part of the look), bent, fabricated and then given a protective clear coat, to create functional fixtures while maintaining that natural look of gun metal gray. Aaron Contemporary™ fixtures allow you the appearance of a custom look at an affordable price.
