For best Ink-Printing results, we recommend using a very dark-colored Ink on a lighter-colored bag.
» Ink-Printing cannot be done on Black, Chocolate, or Navy.

The Eurotote Inventory is being switched from Rope Handles to Twill woven handles. As the Rope Handle inventory is depleted, it will be replaced with Twill woven handles. See the reference grid below for which bag color and size is available with which handle type. If you need a specific handle type, please contact us for the current inventory status. When a Rope Handle item switches to Twill, we will not alert you to this transition; it will just occur.

LOGO/ART PLACEMENT

An 18" Random Repeat is standard on printed garment bags. Each print will begin 18" from the top of the previous print and repeat down the film roll. The print may fall across bag perforations, and each bag may have a different number of imprints based.

Ink-Printed

Hot-Stamped

INK-PRINT + HOT-STAMP

Hot-Stamping and Ink-Printing are two distinct methods used for adding designs or text to bags. Each print type is available for select bag styles and sizes as noted throughout the catalog.

These compatibility parameters are proven to ensure the cleanest and best printed product for your custom printed packaging needs.

DIFFERENCES BETWEEN INK-PRINT + HOT-STAMP | WHEN TO USE EACH

	INK-PRINTING	HOT-STAMPING
PROCESS	Directly applies Ink to the bag through flexography printing by depositing a layer of Ink which is absorbed into the substrate of the product's surface.	Uses heat and pressure to transfer a foil onto the bag's surface. A metal die is heated and pressed on to the foil and bag material.
FOIL VS INK	INK: Better suited for intricate designs and white or light colored bags.	FOIL: Used for a metallic or shiny finish and full art color opacity on Kraft or color bags.
FINISH	Results in a matte finish. The appearance can vary based on the shade of the product being printed.	Produces a glossy, reflective finish, giving bags a luxurious feel. Foil is available in metallic, satin, or matte finishes.
DESIGN COMPLEXITY	Can handle complex designs with thin lines and fine details more effectively than Hot-Stamping.	Best suited for simple designs or artwork. Intricate designs may fill-in, become illegible, or fail to print.
LEAD TIMES	Shorter lead time due to quick set-up time and high-volume printing process.	Longer lead time due to set-up time and individual bag printing process.
PRINTABLE BAG TYPES	Serrated-Edge Shoppers • Serrated-Edge Merchandise JCUT Twist or Twill	Serrated-Edge Shoppers • Serrated-Edge Merchandise JCUT Twist or Twill • Manhattan Totes • Tint Totes • Eurototes

KRAFT BAG w/ WHITE INK-PRINT

Kraft and color bags absorb white or light Ink colors which can change the look of the finished product.

It may appear vintage or distressed, which works great for many types of product / stores.

KRAFT BAG w/ WHITE HOT-STAMP

Hot-stamped foil will not absorb into the bag, thus creating a clean and opaque printed finish.

White or light color foils have a more pronounced print on kraft and color bags.

All pricing is RESALE • Prices subject to change without notice

ARTWORK REQUIREMENTS

All artwork files must be submitted to with the **PO#, Customer/Ship-to name**, and **ARTWORK** in the subject line.

Artwork is subject to acceptance by the Art Department based on quality, printability, product type, material color, print color, print method, and production capabilities.

Artwork files must be submitted digitally via email as Adobe Illustrator files (.AI file type—vector format) with a confirming PDF file. After an individual review, the Art Department may accept other file formats.

All fonts must be converted to outlines and any graphic source files must be submitted along with the artwork file and PDF.

Our Art Department will not alter or change the submitted artwork. It is the customer's responsibility to promptly provide a revised artwork file and approved proof (if applicable). A revised proof will be sent for approval before production begins.

PLACEMENT

Our team aims to horizontally and vertically center the printed artwork on the bag. However, due to various bag elements (handle type, handle location, crease/fold location, gusset folds, fold-over tops, and bag sizes), the artwork placement may need to be slightly shifted for a clean and visually balanced printed product. We reserve the right to make these decisions during production without contacting the customer for approval.

Specific bag styles and sizes cannot have the print area perfectly centered vertically. There is limited vertical print space area on certain bags. Artwork height must be reduced or the print area will be positioned closer to the bottom of the bag. See below:

SHORT PRINT AREA = NEED FOR SHORTER PRINT SIZE

Taller logo on bag with a short print area. Logo cannot be centered vertically, must be placed toward bottom of bag.

Shorter logo on bag with a short print area. Logo can be centered vertically. Applies to 5x3x8, 5x3x12, 6x3x12, 6x3x8, 9x3x7, 13x5x10, + 16x6x12 bags

ARTWORK GUIDELINES

Large coverage areas and reverse-out designs are not recommended, especially for Hot-Stamping.

All fonts should be a minimum size of 9pt to ensure clear printing. However, depending on the font characteristics, some fonts may need to be larger to prevent the areas between letters or inside letters from filling-in, becoming illegible, or failing to print.

Detailed art elements, thin lines, and small white spaces may need to be thickened or adjusted to ensure they do not fill-in or fail to print. White space may be required between art elements for better readability.

Registration, Copyright, or Trademark symbols may need to be increased in size to ensure printing and legibility. If the artwork contains one of these marks outside of the principal elements, the customer must inform the Art Department whether the artwork should be centered including or excluding the symbol.

TOLERANCES

Registration: 1/8"
Side-to-Side Alignment: 1/8"

SCREENS

Artwork with screens cannot be Ink-printed or Hot-Stamped

STANDARDS

Positive Line ≥ 2pt
Negative Line ≥ 3pt
Positive Type ≥ 9pt
Thin Positive Type ≥ 11pt
Negative Type ≥ 11pt bold
Thin Neg. Type ≥ 13pt bold

COMPATIBILITY: PRINT TYPE + PRINT COLOR + MATERIAL

Ink colors may appear different on the finished product based on the bag material, bag color, Ink color, and the Ink's water-soluble nature. The Ink color swatches shown are based on printing on a white bag under ideal conditions.

Light Ink colors, light-colored foils, white ink, and ink colors similar to the product color may appear dull and may not be visible or legible on kraft or colored bags.

All ink and foil swatches in this catalog are a CMYK representation of Pantone or foil colors.

To see the most accurate color:

Ink-Printing

Reference a Pantone Color Bridge Uncoated Guide.

Hot-Stamping/Foil

Reference the Swatch Sheet provided in the Print Kit.

All pricing is RESALE • Prices subject to change without notice

PROOFING PROCESS

Our Art Department will review all submitted artwork and approved proofs for usability. If an approved proof is not provided, our team will email one within two business days of the order confirmation receipt if no further information is needed.

An approved proof is required for all orders that include a new plate (new art or replacement art) or a new bag size/style using a plate on file. After we review the files provided, the customer is responsible for any necessary revisions. Once revised, the customer must submit the revised artwork file and PDF. Our Art Department will review the revised files and either send a new proof for approval or note any further changes needed.

PDF proofs should be viewed at 100% on a regular-sized monitor (not a mobile device or tablet). The colors on the monitor or screen are not the same as those on the final product or imprinted color. All colors on proofs are digital representations of product color, Pantone Ink, or foil colors.

Once everything is correct, reply to the most recent proof email with "Approved for Production." After this is received, the Art Department will order plates, and the lead time for the order will begin. Lead times vary, including an extended lead time during holiday buying months.

PLATE PRICES SUBJECT TO CHANGE		
INK-PRINT	PLATE SIZE	HOT-STAMP
\$130.00	< 30 sq. in	\$170.00
